

DSE43-DME63 series

ROLLON expands the range of products of the TELESCOPIC RAIL family, offering to customers the new slides with extended stroke type **DSE43** and **DME63**. These new models broaden the best-selling telescopic products, whenever long strokes, rigidity of the system and “custom fit” strokes are the most important requirements.

The following are some of the many advantages that the product offers:

- **Strokes over 150% of total length (rail)**
- **High load capacities**
- **High stiffness**
- **High vibration resistance**
- **“Customized” products**

APPLICATION FIELDS

- Protective enclosures, doors (machine tools)
- Battery chest, sliding doors (railways)
- Movable platforms (automotive)
- Medical instruments
- Telescopic handlers
